Dear Members of Alpha Kappa Psi,

My name is Yahya El Nekidy, a Finance & TISA student here at Wayne. I am passionate about leadership, teamwork, and professional growth. I enjoy working out and soccer, and I am inspired by opportunities to collaborate, solve problems, and develop skills that create a positive impact. I want to join Alpha Kappa Psi because its values of integrity, service, and unity align with my own, and I see it as the ideal place to grow into a principled business leader.

My experiences have prepared me to contribute actively to AKPsi. As treasurer of the Egyptian American Student Association, I was able to work with a team to raise 60% more capital. At Cleveland Clinic Abu Dhabi, I developed significant teamworking and leadership skills as well as data analytic skills. These are qualities I think I can bring to AKPsi

I admire AKPsi's focus on developing principled leaders through professional development, mentorship, and service. I would be honored to contribute to these initiatives while also learning from the brotherhood. Thank you for considering my application; I would be grateful for the opportunity to interview and share how I can contribute to Alpha Kappa Psi.

Sincerely,

Yahya El Nekidy
