

Dear Chairs and Brothers of Alpha Kappa Psi,

My name is Zahra Syed, an ambitious Freshman who is looking forward to learning about the corporate world. I am majoring in Finance and Global Supply Chain Management. I aspire to one day lead and organize a business that allows individuals to be comfortable with managing their money and assets. Besides my major, I love to vlog and edit videos to capture memories of my life and be able to share them with others. I also enjoy listening to K-pop, a genre that I have grown to love in the past few years. I have aspired to be part of an organization where I would be mentored and given the resources to be successful in this corporate world. Being raised as an eldest child in an immigrant household has taught me many things. This includes being confident and everything requires dedication. Joining Alpha Kappa Psi will not only teach me confidence, but it will also be a place where I will be able to learn more about myself and look up to others, which I have never had the chance to do. Business is not only about networking; it is about sharing your knowledge with others and being successful while doing so. Therefore, as a curious and hardworking individual, I look forward to new beginnings as a Brother at AKPSI.

Joining AKPSI requires dedication, and through my experiences throughout my life, I believe that I would be a great fit. Throughout high school, I have been heavily involved in extracurricular activities. Specifically, Debate, Model UN, and South Asian Student Association. These foundations have helped me become the person that I am today. Through the experience in Debate, I was able to think critically and work towards a goal; to be able to understand the other individual and state my logical side to it. With Model UN, I was able to capture the ideas of public speaking and reasoning. In the South Asian Student Association, I was able to express my culture as a minority, allowing other students to do so as well. My leadership in these clubs involves being the Social Media manager for Debate, Vice President of Model UN, and Founder and President of the South Asian Student Association. All these organizations have taught me to be responsible, organized, and the essence of hardwork. Through my ambition, I was able to become Fundraising Manager for MESA Business Club and Membership Chair for Wayne Women in Tech. I hope to use these skills and excel as a member in these organizations, along with AKPSI. With AKPSI, I hope to be able to expand my network, and exchange ideas with Brothers to gain a diverse array of knowledge and to be able to implement it in my life.

AKPSI is not just an organization; it is a family in which everyone helps each other to succeed. I understand that service, integrity, unity, and knowledge are the foundation steps to AKPSI, and I look forward to implementing these values throughout my experiences in my life.

I look forward to being a part of AKPSI and making a long-lasting impact to help better our environment and give back to Detroit. I really look forward to meeting all the Brothers from diverse cultural backgrounds and creating long-lasting relationships. I look forward to meeting and being interviewed by AKPSI!

Sincerely,

Zahra Syed
