Dear Members of Alpha Kappa Psi,

My name is Aiden Rahma, a freshman pursuing a Bachelor of Business Administration in Global Supply Chain Management at Wayne State University. I'm fascinated by the way products and ideas travel across the globe and how thoughtful logistics can connect cultures and markets. I enjoy blending creativity and precision—whether designing custom jewelry or refining a website prototype to improve workflow and user interaction. These experiences sharpened my problem-solving skills and inspired me to join Alpha Kappa Psi, where I can grow as a principled business leader while contributing to a community dedicated to professional excellence and lifelong learning.

Alpha Kappa Psi values integrity, service, and professional development—qualities I have demonstrated through my work and leadership.

- **Sales Associate, Farah Jewelry Inc.** – Consistently increased monthly revenue by **15%** by cultivating strong client relationships and promoting high-value items. Trained **two new employees** in operations, cash balancing, and security protocols.
- **Board Member, Michigan Mandaean Youth Group** – Plan and organize community events, coordinate volunteers, and create solutions that foster unity and positive change.
- **Technical & Communication Skills** – Proficient in Microsoft 365 and computer-aided design; fluent in English and Arabic, enabling cross-cultural communication.

Your chapter's initiatives—such as professional networking events, leadership workshops, and service projects—align perfectly with my goals. I am eager to collaborate with like-minded peers, help plan impactful events, and bring both analytical thinking and creative vision to advance Alpha Kappa Psi's mission of developing principled business leaders.

I would be honored to interview with you to further discuss how my background and enthusiasm can benefit Alpha Kappa Psi. Thank you for considering my application; I am excited about the opportunity to grow with your distinguished organization.

Sincerely,

Aiden Rahma

**ALPHA KAPPA PSI**
