Dear Brothers of Alpha Kappa Psi,

As a first-generation student, watching my parents grow their own business has always motivated and driven me to dream big and hopefully one day run my own business. This exposure made me passionate about studying finance and global supply chain management. Especially building meaningful connections and belonging in a community that supports each other is something I value greatly. A motto that I stand by is try everything at least once before deciding whether it's for you. I constantly like a challenge and enjoy learning different skills and hobbies. From learning a new sport to starting a new creative project not only sharpens my skills but taught me to persevere and develop more confidence in areas where I lack experience in.

Experiences throughout my education and volunteer work have taught me adaptability, collaboration, and leadership skills. When tutoring elementary students, they each bring different strengths, allowing me to recognize and shift teaching methods that suit the student the most based on their learning styles. In group projects, working with teammates by recognizing our strengths, encouraging open communication, and taking in everyone's ideas has created an effective product. As a tennis instructor, I guide my students in achieving their goals with an encouraging environment that helps them excel in their own skill and confidence on the court. These experiences gave me the skill to adapt, collaborate, and lead with the values of service and brotherhood.

With my accumulated skills, I will be able to serve Alpha Kappa Psi as a committed member who displays unity, professionalism, and lifelong learning. By applying my skills in adaptability, collaboration and leadership, my contribution to Alpha Kappa Psi will encompass building strong connections and upholding ethics as becoming a business leader. Thank you for your time and consideration of my application. With my interest in professional development, I look forward to the opportunity to discuss more about my involvement and how I can have a positive impact on Alpha Kappa Psi. Thank you again.

Sincerely,

Seline Ip

A handwritten signature in black ink that reads "Seline Ip". The signature is stylized, with the first name "Seline" written in a cursive script and the last name "Ip" written in a more bold, blocky style.
