

To the Esteemed Brothers of Alpha Kappa Psi,

It has been a pleasure meeting and networking with you all. My name is **Faliha Malik**, I am majoring in Marketing and Finance, and I believe I would be a beneficial addition to AKPsi. My passions derive from my love for perfume, as it represents the magnitude of my blessings. In the long run, I aim to use my blessings to bless other people. Rather than separating my passions from my education, I strive to combine them, motivating me to create a positive impact on society. My long-term aspirations include earning a Master's in Public Policy and eventually becoming a diplomat for the United Nations, fulfilling my dream to bless others in the way I am blessed. Aspiring to hold significant leadership roles in the future, I aim to strengthen my networking, teamwork, and collaboration skills in the present, which I believe I could accomplish as a member of AKPsi.

How I embody the core values of Alpha Kappa Psi:

Brotherhood: I can develop strong connections as I am an alumnus of 2 business programs at the Ross School of Business, where I networked with professors and over 70 students from around the world.

Knowledge: I enjoy collaborating and sharing ideas with other motivated individuals, as I worked on 2 group consulting projects for Mindo's Chocolate Shop and The Ritz Carlton.

Integrity: I strive to integrate business ethics with public service to impact society positively.

Service: I volunteer in mosques, churches, and schools, and hope to continue giving back through AKPsi.

Unity: I aim to combine my vision and values with other members in AKPsi to make a greater impact.

To me, my network is everything, and I strongly believe that AKPsi values building, growing, and maintaining one's network. My motivation for impacting the world derives from my passions, like perfume. I am eager to share my passions and learn and grow from cultivated AKPsi members.

Just like perfume lingers beyond the first impression, I hope my passion and purpose leave a lasting impact with you all. I would love the opportunity to interview, as I could further share how my visions align with the fraternity's values.

Sincerely,

Faliha Malik
