

Greetings, Brothers of Alpha Kappa Psi,

My name is Tyler Colley, and I am a sophomore here at Wayne State studying Global Supply Chain Management. Some interests of mine are music, movies, history, cars, skiing, and powerlifting. My greatest strength and skill is adaptation; an example of this is my first year here at Wayne State. I was originally a Mechanical Engineering major, and with that major comes lots of work and headaches; on top of the work, I was prepping for my first powerlifting meet, waking up at 5:00 AM to go to the gym, making sure I got 7 hours of sleep, and maintaining a social life. Even though this was a completely different schedule from the one I had throughout high school, I adapted as I had countless times throughout the numerous jobs and challenges I have faced. AKPSI is a brotherhood of value with its strong connection within and outside of campus. This fraternity is a hub of strong connections that will help a college experience and career. I would like to join to add to the ever-growing pool of value, unity, and professionalism.

I have had the privilege of working in many corners of industry. I have worked as a landscaper, contractor, restaurant busser, the owner of a mobile car detailing company, and I was fortunate enough to learn the inner workings of opening and maintaining a business from my father, the owner of Autobahn Leasing and Sales. Throughout the years, I have gained a lot of experience, and with that, I think this fraternity will help add to my experience and sharpen me as a mover, shaker, and leader.

As an alumnus of the University of Detroit Jesuit High School, brotherhood was a key value taught to us. I see this fraternity as another strong brotherhood that will help me to continually grow not only in business but in life. The key values of this fraternity, brotherhood, knowledge, integrity, service, and unity, are values that have been with me throughout my childhood, jobs, and education prior to Wayne State. I think I can continue AKPSI's mission with the key values that I was raised with and that this fraternity prides itself on.

Sincerely,

Tyler Colley
