Dear Alpha Kappa Psi Recruitment Team,

My name is Mohammed Amer. I am currently a Junior at Wayne State majoring in Finance and Technology, Informations Systems, and Analytics. I've built a foundation in both finance and information systems, combining skills in financial analysis, budgeting, market research, as well as data management and business technology. This mix allows me to approach problems from a financial perspective, and a technology oriented mindset. These skills allow me to have different perspectives on problems. Beyond the classroom and the workspace, I've found that my hobbies and personal interests push me to grow in different ways. Mixed Martial Arts has taught me discipline and focus that I carry into every aspect of my life, Stoic philosophy reminds me to control what I can and remain steady during setbacks. And last but not least, my attentiveness towards military history inspires me to think strategically and adapt to challenges. I would love to be a part of Alpha Kappa Psi because I see it as a community where I can grow alongside driven peers, develop as a leader, and build lifelong connections. It would be a pleasure to learn from others' perspectives, and contribute my own outlooks, while being a part of an exceptional team.

My previous experiences have given me a strong foundation to be a highly active member of Alpha Kappa Psi. During my role at Buckeye Renovations, I gained valuable experience that directly aligns with Alpha Kappa Psi's emphasis on leadership, teamwork, and professional development. I really got to see how business decisions play out in real time. Handling the finances for projects taught me how important it is to stay organized and detail oriented, especially when deadlines and budgets are tight. Leading a small crew pushed me to step up as a leader, not just by delegating tasks, but by keeping everyone motivated and working together. On top of that, working closely with clients and contractors showed me the value of clear communication and building trust. Altogether, these experiences strengthened my leadership, teamwork, and professional skills, and I'm excited to bring that same energy and commitment into Alpha Kappa Psi.

Alpha Kappa Psi's mission to develop principled business leaders is what I strive for. My experience managing projects, leading teams, and working with clients has shown me the impact of accountability and teamwork, and I am eager to bring those values alongside Alpha Kappa Psi.

I would be grateful for the chance to interview and share how I can contribute. Thank you for considering my application, I look forward to the possibility of contributing my skills and energy to Alpha Kappa Psi's mission.

Sincerely,

Mohammed Amer
