Dear Alpha Kappa Psi,

My name is Jesse Jennings; I am a junior double-majoring in Accounting and Finance. I'm a highly motivated and dedicated individual with a strong passion for accounting and finance. Some of my hobbies include trading, practicing musical instruments, and weightlifting. However, I am also well-rounded professionally, some of my skills include:

- Written and verbal communication
- Financial analysis
- Public speaking

I am a firm believer in extracurriculars and because of this I have been involved in many groups and clubs over my time in academia. Most notably running my previous school's business club for two consecutive semesters. Where I grew average event attendance by 80% which eventually resulted in leading the largest vocational club on the Schoolcraft College Campus. I also worked to locate and mentor talent which grew into a well-balanced and capable team that ended up planning and carrying out a flagship event which was later adopted by the college. I've also worked in the accounting industry for the last two years gaining experience in the field I aim to be in upon graduation.

This has prepared me with skills I believe would lend well to Alpha Kappa Psi's commitment to professional growth. I believe my values align with that of Alpha Kappa Psi because of similar commitment to knowledge, integrity, and service. Moreover, I know I could learn from the current membership and use it as an opportunity to grow both personally and professionally. I would greatly appreciate the opportunity to follow up on this conversation in person so that I might convince you that I would be a great addition to your already accomplished ranks. Thank you for allowing me this opportunity and I look forward to hearing from you!

Best regards,

Jesse Jennings
