To Whom It May Concern,

My name is Maddison Rushlow, I am a third-year at Wayne State University pursuing a degree in Global Supply Chain Management. I recently transferred from Adrian College, where I played collegiate tennis for the duration of my time there. When I am not in school I work as a server, where I create lasting impressions on customers and give them the best experience I can during the short period I interact with them. My main interests outside of school lie in music and arts; I love to read, play the violin, and discover new music. Staying active also shapes me into who I am, I make sure to continue my love of tennis recreationally as well as working out in the gym. I am mainly driven by the goal of fulfillment, everything that I hope to achieve through means of school and extracurriculars will be because it would help me become a more well-rounded student, sister, friend, and person. Joining Alpha Kappa Psi would ultimately open me to a space where I am surrounded by those who have those same common goals.

Many of the roles and skills I have acquired would make me a fitting candidate for Alpha Kappa Psi membership. I have a lengthy history in the restaurant business; I started as a hostess in 2021, where I managed seating at a restaurant. It was there where I effectively communicated with staff and customers to seat people in an orderly fashion. This taught me conflict-resolution skills and time management efficiently at a young age. I then started as a server in 2023, creating lasting impressions on customers through giving professional and attentive service. The combination of these two jobs make me fit for AKPSI because it helped me communicate with others in a public setting and instilled time management skills. I then went on to gain the role of Recruitment Chair for Adrian's Campus Activities Network, where I helped our club gain membership and attendance through social media outreach and cultivating events to increase student interaction. I got the privilege of working closely with Adrian faculty, managing the club's funds to create merchandise and advertising. This helped me gain collaboration skills on a different level, and I am positive that it helped shape me into a great candidate for AKPSI.

Overall, I am greatly interested in gaining AKPSI membership, as I am positive that it would help me develop into a true leader and role model. Belonging to a community of like-minded, hard-working individuals is the most fulfilling privilege I could receive, and I am grateful for the opportunity to share my story.

Sincerely,

Maddison Rushlow
