Dear brothers of Alpha Kappa Psi,

I'm excited about the opportunity to re-rush for Alpha Kappa Psi at Wayne State University this semester. After rushing last semester, I took some time to reflect on what I've gained in the experience and where I fell short. Since then, I have focused more on improving on what I've missed last time, and being more intentional about my goals and how I can show up for others.

Along with re-rushing, my interests in cricket, soccer and Formula 1 have continued to shape the way I view leadership and teamwork. These interests have taught me discipline, communication and being resilient when it comes to dealing with pressure. These lessons have influenced the way I collaborate with other people in a professional setting especially when working towards a shared goal.

I have also strengthened these skills through an internship at the Mark Cuban foundation. The internship has taught me the fundamentals of teamwork and leadership which are qualities that strongly resonate with Alpha Kappa Psi. In addition, I've also served in my High school's Keyclub which has allowed me to work with many groups of people to organize and participate in helping serve the community. This has further developed my ability to lead, serve, and contribute meaningfully in a community.

Finally, I would like to thank the brothers for another opportunity to be a part of a community that values both leadership and service. My experiences with rushing in the first semester, the Mark Cuban Foundation, and Key Club has allowed me to develop skills in organizing, serving, and leading a team which are qualities I hope to bring to Alpha Kappa Psi. This semester, I'm more committed to taking initiative during events and consistently carrying out my responsibilities throughout the semester. I would like to welcome the opportunity to explore how my skills and goals can help contribute to the chapter.

Sincerely,

Mithun Soundararajan
