My name is Tulene diab, I'm a sophomore majoring in law with a double minor in philosophy and criminal justice. I'm someone who thrives on creativity, whether that's regularly baking a wide variety of pastries, cakes, and desserts—often in large batches, which has strengthened my precision and time management—or finding new ways to stay active while prioritizing wellness. I have a strong passion for fashion, whether it's vintage designs from Roberto Cavalli or the newest trends from Coco Chanel. I also have a strong interest in social media, whether that's making content, doing advertisements, or just having fun with friends online. What draws me to Alpha Kappa Psi is your dedication to developing business leaders while building a community where members can grow, collaborate, and make an impact. I would love to be a part of that energy and contribute my creativity, organization, and enthusiasm to the chapter.

Through my involvement in clubs like Glamour Gals and the Arab Association, I've developed strong leadership, teamwork, and organizational skills that align perfectly with Alpha Kappa Psi's purpose. As Vice President of Glamour Gals, I led fundraisers, organized events, and coordinated activities to engage and support the community, while my work with the Arab Association allowed me to educate peers, plan programs, and collaborate with a diverse group of members. My work experience and studying law have strengthened my multitasking, precision, and critical thinking skills—helping me become highly organized, adaptable, and people-oriented, and making me confident I can be an active and valuable member of AKPsi.

I've looked into what Alpha Kappa Psi stands for, and what really caught my attention is your focus on developing principled, ethical leaders who grow both professionally and personally. I love how AKPsi blends professional development events, networking, and community service with a strong sense of support and collaboration among members—something I also value in everything I do. From leading clubs and organizing events to managing social media and working in fast-paced environments, I've built skills in teamwork, communication, and strategic thinking that align with AKPsi's goal of preparing members for success beyond college. I'm thrilled by the idea of contributing to a community that pushes each other to grow and make a positive impact.

I would be beyond honored to be able to get the opportunity for an interview to show how my creativity, energy, and hands-on experience can add value to Alpha Kappa Psi. I'm super excited to collaborate with members who are just as passionate about leadership, growth, creativity, and a positive spark to the next chapter. Thank you for considering my application. I'm excited about the possibility of joining AKPsi and growing alongside a community that truly inspires me.

Sincerely,
Tulene Diab
