Dear Alpha Kappa Psi,

My name is Kristian Kilpatrick, I am currently a sophomore here at Wayne State. Pursuing a double major in global supply chain management and finance. I am also currently a student athlete playing football, I also love cars and being outside fishing and playing golf. Being a student athlete has taught me many skills such as time management, discipline, and accountability. All of these values are extremely important to me and are the base of my everyday life. I am extremely grateful that I heard about AKPSI and once I heard about it I was very eager to join. I want to join AKPSI because it allows me to meet new people and get to know other students around campus.

I have founded and currently manage my own company. This company that I started with one of my high school best friends the summer going into my junior year called Scrub Bros Window Cleaning and Services. We offer window cleaning and other services to local clients. Running a business has been an extremely fun journey learning how to manage clients, do invoices, scheduling, and etc. I also work as a sales assistant at Lafontaine Automotive Group in Fenton, MI where I manage an inventory of over 800 vehicles. I helped prepare and deliver sold units to customers all over the state, making sure of the best customer service and making the car buying experience as flawless as possible. Playing football has taught me how to become a great leader and how to work with a team to get the most out of teammates. Having a skill in time management while managing 20 hours a week of practice and games while also being a full time student.

I am very grateful and blessed for this opportunity to join AKPSI and it would be an honor to be given an interview for AKPSI. This is a chance for great professional development and to become an overall better person.

Sincerely,

Kristian Kilpatrick
