To Alpha Kappa Psi,

As a business management major, I am writing to express my interest in Alpha Kappa Psi. My interest in fashion and jewelry design also led to my role as Creative Director of my mother's custom clothing company. These hobbies turned businesses allowed me to express myself while cultivating professional development. I am inspired by my ability to turn hobbies into lucrative businesses, a drive that grew from watching my father flip properties as a real estate investor. Growing up in an entrepreneurial household taught me the values at the core of a true business. Joining AKPsi would be an opportunity to continue my professional development while connecting with individuals who share these passions.

My experience as an entrepreneur has prepared me to flourish as a member of AKPsi. My passion stems from entrepreneurship; my ventures include a boutique esthetics brand, a permanent jewelry brand, and becoming a licensed realtor. As Creative Director, I led pop-up shops at community and professional development events, securing a professional clientele. Designing custom blazers that allow women to express their accomplishments has honed my professional leadership. Engaging in this environment allows me to understand my place in the professional world and provides a true understanding of my career path. I will bring this same ability to execute events and engage with professionals to AKPsi, contributing to the fraternity's professional standards.

AKPsi's vision "to be recognized as the premier developer of principled business leaders" aligns with my goals as a positive member of society. It's important to me that I have a positive impact on society. As a first-generation college student, representation matters. Without diversity as a young black woman, there is space for people who look like me to be left out. Being recognized as a cultivator is an important aspect. Bridging the gap between representation in professional fields can be attained through bringing my experience in development to AKPsi. By applying the same networking and management skills I used to build my brands, I will expand AKPsi's professional reach for underrepresented students.

Furthermore, I challenge the members of Alpha Kappa Psi to join me in redefining what it means to be a principled leader in an evolving market. My journey from a creative director to a licensed realtor has been driven by a desire to build, but I am ready to scale that impact alongside a brotherhood of like-minded innovators. Through this transition, I have learned that leadership requires the ability to adapt with integrity, a perspective I hope to share as we navigate today's professional landscape. I am eager to discuss how my entrepreneurial grit and commitment to representation can contribute to the legacy of this chapter. I look forward to the opportunity to meet with you for an interview.

Sincerely,

Skye Tyler
