Alpha Kappa Psi

Detroit, MI

Dear, Alpha Kappa Psi

Alpha Kappa Psi provides a vast network in consulting, finance and a wide range of different industries that builds a meaningful relationship with peers that share the same professional ambitions.

It helps you gain experience in working with committees and promotes collaboration with the fundraising and professional events.

The care that Alpha Kappa Psi shows is kind, they help people step outside their comfort zones helping build personal integrity and improvement .

After spending 2 years in the restaurant industry serving 10-20 tables every hour, I developed a strong understanding of the importance of building trust and long-lasting relationships. This experience strengthened my ability to communicate clearly and has helped me turn complex information into more clear insights, while also earning recognition due to my willingness to learn. Therefore, I believe this could make me a great asset to Alpha Kappa Psi.

Sincerely,

ESHAN UDDIN
