Dear Members of Alpha Kappa Psi,

My name is Damian Uresti-Garcia, and I am a first generation college student at Wayne State University at the Mike Ilitch School of Business, majoring in finance and accounting. I am passionate about learning how business works from both a technical and real word perspective, especially through a team that is thrilled to do their best. Growing up as a second generation immigrant has shaped my work ethic and adaptability, and it has motivated me to opportunities like Alpha Kappa Psi that emphasize growth, professionalism, and strong values. But I don't only want to join just for me, I want to join for others like me so they see that they also can be in spaces I usually don't see people like me in. Now without all the seriousness, at the end of the day im just a boy. I like to go out with my friends, go down rabbit holes and be fixated on silly things, and listen to music on full blast in the car even it continues to damage my already low hearing abilities

Through my work experience in fast paced service and retail environments, As a waiter at Si Senior, my experience as a school store employee training and supporting new student employees in a retail environment cashier, and a DECA hospitality competitor, has given me knowledge on how to adapt in different situations because growing up I didn't exactly have a blue print. It helps me when I work with teams at work, integrating brotherhood so that my team can trust and rely on me. I used knowledge I gained at home to communicate across cultures. I do that by speaking spanish when a customer that does not speak english comes in and they need help ordering, I happily am there to guide them to what they want.

I would greatly appreciate the opportunity to further discuss my interest in the fraternity and how I can contribute as an active and engaged member. Honestly I am thankful for just having this experience, especially because I am an introverted person and being given the outlet to push myself out there makes me thankful and proud of myself. Thank you for taking the time to consider my application. I genuinely care about this opportunity and would be excited to continue the process.

Sincerely,

Damian Uresti-Garcia
