Brothers

Alpha Kappa Psi – Beta-Omicron
Chapter

Wayne State University, Detroit,
Michigan 48301

Dear Alpha Kappa Psi Brothers,

I'm really excited to be considered for the Beta-Omicron Chapter of Alpha Kappa Psi. These past two weeks of rushing have been amazing — I've been blown away by the brotherhood, respect, and support everyone shows each other. From game nights to resume workshops to personal pitch sessions, I've met so many members in such a short time, and honestly, I'm in awe of how welcoming and professional the chapter is. I really hope I get the chance to join and be part of this community.

I also remember someone joking during one event about how some "businessmen switch up on day ones." If I get the opportunity to join, I want to show that I'm reliable, committed, and hardworking, bringing the same dedication I put into my classes and extracurriculars. I'm also eager to contribute my experience in planning events, collaborating on projects, and building community, whether that's helping organize workshops, chapter events, or philanthropic activities.

Joining Alpha Kappa Psi would be an amazing chance to grow personally and professionally, learn from brothers' experiences, and develop skills I can take into the real world. I'm excited to bring my energy, enthusiasm, and dedication while supporting and learning from my fellow brothers.

Thanks so much for considering me. I'd be honored to join the Beta-Omicron Chapter and can't wait to continue connecting with you during recruitment.

Yours sincerely,

WANIA ABBASI
