

Dear Alpha Kappa Psi members,

My name is Miryam Chamas, and I am a freshman pre-law student majoring in finance. As a first generation immigrant and college student, my main focus is to grow and become the best version of myself. I know my journey won't always be a straight line, but I'm determined to make the most of every moment, whether it's a moment of happiness or disappointment. I'm not only working to build a strong future for myself, but also to give back to my family and friends who have supported me along the way. I heard about the fraternity from brothers I met at school events, and every time, they spoke about their experience with real and genuine pride. That sense of support is exactly what I'm looking for throughout my journey as an undergraduate student.

My background and experience across different teams have helped me grow as a leader and team player. My job at ABC Warehouse started as an entry-level position and later turned into a management role because of my ability to take initiative and make team members feel supported and included. Having a second job also helped me develop strong time management skills and ways to work around a busy schedule. Working closely with kids diagnosed with autism and ADHD has taught me to be patient and remain professional in all situations. I am still learning and hoping to grow, which is why I am actively seeking opportunities like AKPSI that can help me grow both professionally and personally.

Accomplishments I am proud of:

- Contributed 150+ volunteer hours to cultural and religious events within my community
- Began learning new languages and exploring new cultures from all around the world

I am interested in AKPSI not only for careers, internships, and professional connections, but for building lifelong friendships. During info night, an alumnus shared how the relationships he formed as an active member remain important to him today, which really inspired me and showed me that AKPSI is about more than just professional opportunities.

I have truly enjoyed the recruitment process and would love the opportunity to interview to share more about myself and my goals to grow with Alpha Kappa Psi.

Sincerely,

Miryam Chamas
