

Dear Alpha Kappa Psi,

I'm so excited to be given the opportunity to rush such a renowned business organization. AKPSI has really spoken to me in the way it helps students tap into their full potential in business, but also in the way it creates such a supportive environment. In just my few days rushing I have witnessed a tight-knit community that is truly rare; anybody would want to be a part of it, and I am no exception. Additionally, I'm looking to build true leadership and business skills not only for a future career, but to implement in my daily life. I am a firm believer that everyone can benefit from basic business and money skills, and the ones best educated in these areas will be the most successful. I'm hoping AKPSI can teach me more so that I might be amongst the best educated. Although I love businesses, I'm a firm believer that everyone needs a creative outlet. For me, I really love the performing arts. Singing is my primary hobby, but dance is a close second. I've recently been learning how to breakdance, which is a completely new form of dance for me! These hobbies allow me to balance things like work and school with creativity.

I have been a loyal gymnastics coach for children at Mega Gym Fun and Fitness for the last three years and let me tell you; trying to teach a group of 10 children to do cartwheels definitely forces you to develop people skills. Though admittedly you would interact very differently with a child versus an adult, the core values still hold true. The skills of understanding, patience, compromise— these are things you simply cannot succeed without, and skills that must be developed through intentional practice. I intend to continue learning how to be more understanding, more patient, and make better compromises in my time at AKPSI. I believe AKPSI will teach me valuable lessons in brotherhood, trust, and unity. I don't have any awards worth mentioning, but you can trust me to be a highly active member because *I want to be*. I want to be hands-on in this club; I want to gain real world experience to better myself and further my career, but also help this club continue to thrive in any way I can. Then maybe one day, I will have awards worth mentioning.

With that being said, I want to show you that I can be a contributing member who brings a unique personality and skill set. Joining AKPSI would help me further my career but more importantly, it would allow me to surround myself with caring and motivated individuals. I would be honored to have the chance to interview for this organization. I hope to see you soon!

Sincerely,

Josephine
