

Dear Brothers of Alpha Kappa Psi,

My name is Ayaan Syed, and I am a dual major in Finance and Technology & Information Systems with a strong interest in strategy, data-driven decisions, and problem solving. I work well in opportunities that require critical and analytical thinking, strong communication, and leadership. My experiences in finance and quality have enhanced my teamwork skills, and have allowed me to work in diverse learning environments which I have tried to learn new things from every time. Outside the classroom, I love traveling, board games, and doing service to give back to communities. I am drawn to Alpha Kappa Psi because I believe each individual from AKPsi is someone to learn from. I am easy to coach and have a strong willingness to learn, and I believe that there is so much I can benefit from the people and resources that AKPsi provides to professionally develop my skillset, improve networking and outreach confidence, and learn something new from the workshops.

My experiences have prepared me to be a committed and highly active member of AKPsi. As a Supplier Quality Audit Intern at Detroit Manufacturing Systems (Voltava), I developed automated Excel workflows that reduced process variation by 30% and supported ISO/TS compliance through supplier audits. In leadership and service, I previously served as Delta Epsilon Mu's Professional Chair for the Alpha-Alpha Chapter, where I organized outreach initiatives and networking efforts while maintaining a strict level of professionalism and accountability. These roles strengthened my ability to collaborate, lead with integrity, and develop a committing level of dedication to future projects I am apart of and future like-minded individuals I work with. Alpha Kappa Psi's mission to build strong friendships through shared goals and values align with my goals for becoming a brother. I am eager to become a big part of a community who engages with companies and professionals that specialize/pursue similar post-graduate tracks, stays connected, and upholds a level of professionalism that results in successful endeavors and events.

I would sincerely value the opportunity to interview and further demonstrate my dedication to Alpha Kappa Psi. Thank you for your time and consideration. I am excited about the possibility of contributing to this brotherhood and upholding its legacy.

Sincerely,

Ayaan Syed
