Hello Alpha Kappa Psi,

My name is Sam Walkonis, and I am a Supply Chain Management student at Wayne State University. I am currently in my third year of college after transferring from Schoolcraft College. I transferred to Wayne State to pursue my Bachelors from a University that has a great business school reputation. Some of my hobbies are going to the gym, snowboarding, and learning spanish. The best way for me to learn is by stepping outside my comfort zone when it comes to meeting new people or lifting heavy weight.. This is why I took up learning a second language, because unlike anything else I am forced to communicate in a whole different way with new people.. I am applying to Alpha Kappa Psi because I want to join a like minded organization that shares the same goals in business and will help me grow.

Through my experience serving customers in a restaurant, I have developed a strong work ethic, time management skills, and the ability to work effectively while talking with customers and taking care of their needs. I am well experienced with collaborating on diverse teams, communicating clearly with customers and coworkers, and taking responsibility for my work. These experiences have taught me the importance of reliability, accountability, and adaptability with qualities that align closely with AKPsi's values. Through my mistakes and shortcomings I have learned what it takes to learn from failure and focus on achieving my goals. I am eager to contribute my dedication, teamwork, and willingness to learn from the fraternity while also taking advantage of the professional development, networking, and leadership opportunities AKPsi provides. I share the same principles as AKPsi's emphasis on service, integrity, and brotherhood, as I believe these principles are essential in both business and personal success.

I welcome the opportunity to further discuss my application in an interview and share more about my goals, experiences, and enthusiasm for Alpha Kappa Psi. Thank you for your time and the experience to network, and I hope to have the chance to contribute to and grow with this organization.

Sincerely,

ALPHA KAPPA PSI
The Professional Business Fraternity
